The great celebrity and increasing demand for this unequaled preparation, convinces the proprietyr that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation in use. It cleaness the head and scalp from dandruff and other cutaneous discases, causing the hair to grow luxuriantly giving it a rich, soft, glossy and flexible appearance, and also, where the hair is loosening and thinning, it will give atrength and vigor to the roots and restore the growth to hose parts which have become taid, causing it to yield a resh covering of hair.

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations have failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest rediscutability. It will effectually prevent the hair from turning until the latest period of life; and in cases where the hair has aiready changed its color, the use of the Invigorator will with certainty restore it to it to its original hue, giving it a dark, glossy appearance. As a perfume for the toilet and a Hair Restoraire it is particularly recommended, having an agreeable fragrance; and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form so as to preserve its place, whether plainfor in curis; hence the great demand for it by the ladies as a standard toilet article which none ought to be without, as the price places it within the reach of all, being
